# StroMoHab

StroMoHab - a step change in stroke rehabilitation

## Stroke Mobility Rehabilitation

### For the Patient

- ♥ Engaging and intuitive virtual environments
- ♥ Visual and auditory feedback
- ♥ Proven methodology
- ♥ Task repetition to reinforce learning
- ♥ Patient safety

### For the Clinician

- ♥ Patient diagnostics and performance metrics
- ♥ Works with existing physiotherapy treadmills or as a compact stand-alone
- ♥ Gait training tool suite for customised patient care
- ♥ Real time gait and movement analysis
- ♥ Secure remote access
